

Pleasant Holiday Privacy Policy:

We do not collect any data, period.

The “Speedy” app reads the current speed limit and speed from the Google Maps app, but it does not store that information anywhere except on your phone.

“Speedy” was developed using the “Tasker” app and is very simple. It relies on Tasker to do almost everything. We don’t have access to the code used by Tasker so we cannot vouch for what it does or doesn’t do.
